DETAILED ACTION

Drawings

Allowable Subject Matter

2. Claims 1-20 are allowed.

Examiner's Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The prior art fails to render obvious the claimed method and system of assessing damages inflicted in battle, as related to the broadest claim including, inter alia, the transmitting a real time video image signal from an explosive missile and simultaneously receiving and demodulating said real time video image signal at a plurality of receiving mobile platforms as functionally and operationally claimed. It is clear that the prior art do not fairly render the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art show various missile and radar systems.
